Dear students,

We would like to offer you the chance to participate in a very interesting and important study which will help us develop a new generation of more secure and trustworthy systems. Specifically, we investigate a correlation between levels of trust among people and common characteristics found on their smartphones.

Apart from contributing to the state-of-the-art research in the field of trust and security you will be able to win valuable prizes! Namely, at the end of the survey we will raffle 10 amazon gift cards of 50 EUR each. Interested? Then read the requirements and extra information below and fill out the Doodle poll with your full name (first name and last name) and your study program (e.g. MSc IT-security). The poll is open till 8th of September 2016 (23:59).

Requirements:

You will be asked to install a simple Android app. Therefore, you must possess an Android phone (OS version 4.4. and higher) and use it for at least 3 months.

Extra information:

- The Doodle link: http://doodle.com/poll/nwciare55txhisc6
- The study will take place on 15th of September 2016 at 10:00 (the place to be announced)
- The study will take approximately 1 hour.
- For further information please contact Mikhail Fomichev (mfomichev@seemoo.tu-darmstadt.de) or Nikolaos Alexopoulos (alexopoulos@tk.tu-darmstadt.de)
